Square foot coverage is based on installation with a ½” mortar joint. Other colors are available for this profile.
We have gathered some of the most unique flooring textures from around the world to create a beautiful collection of cement-set concrete tiles. Using a specialized method for color blending, the finished product is virtually indistinguishable from natural stone tile.

Floor Tile Series

We have gathered some of the most unique flooring textures from around the world to create a beautiful collection of cement-set concrete tiles. Using a specialized method for color blending, the finished product is virtually indistinguishable from natural stone tile.
**Floor Tile Series**

**Versailles Travertine**
Versailles Travertine adds a beauty to your home that inspires absolute refinement. From its soft hue to its distinct tumbled textures, Versailles Travertine defines elegance.

**Jerusalem Cobble**
Jerusalem Cobble brings the ancient world to your footsteps. Replicating the old cobble roads of Jerusalem with highly detailed textures and rustic earth tone colors, Jerusalem Cobble adds an old world feel to any setting.

**Italian Tile**
Italian Tile adds a sense of tradition, warmth and old world charm that other tiles don’t possess. This faintly textured tile, coupled with its hard-lined edge, creates a feel of natural symmetry.

**Mexican Tile**
Our Mexican Tile is popular throughout the Southwest due to its genuine look and feel. This tile is for those seeking the authentic beauty and style of a Spanish Hacienda.

**Square foot coverage is based on installation with a ¼” mortar joint for Versailles Travertine & ½” mortar joint for Jerusalem Cobble.**

Belgian Tile

It is the beauty of Belgian Tile that gives this tile much charm. This attractive tile can be used in several different indoor and outdoor settings.

European Cobble

European Cobble radiates the charm and ambience of Europe with an array of old world colors. This profile adds the authentic touch and feel of an ancient cobblestone street.

River Washed Tile

River Washed Tile exudes a sense of tranquility. This lightly textured stone mimics natural color blends and works perfectly with indoor and outdoor mosaics.

Random Flagstone Tile

Random Flagstone has a timeless beauty. This uniquely shaped tile will match almost any architecture and stone veneer. In addition, the shape makes it extremely easy to install.

**Achieving LEED and Green Building Certification**

Coronado Stone Products is dedicated to producing a superior manufactured stone veneer with the least amount of impact to our environment. With a combination of internal recycling techniques, products that increase levels of energy performance and strategically placed facilities throughout the U.S. and Canada, Coronado Stone can help you achieve sustainable solutions for LEED requirements.

**Materials:**
- Cement: ASTM C150
- Sand: ASTM C144 or C33
- Aggregate: ASTM C35 or C33

**Testing:**
- Shear Bond Test: Tested in accordance with ASTM C482
- Water Absorption: Tested in accordance with section 314 & 46 of ICC-ES AC51
- Freeze / Thaw: Tested in accordance with ASTM C67
- Unit Weight: Shipping weight is less than 15 lbs. per sq. ft. Density is determined in accordance with ASTM C67
- Compressive Strength: Tested in accordance with ASTM C99
- Tensile Strength: Tested in accordance with ASTM C90
- Flexural Strength: Tested in accordance with ASTM C348

**Integrity Data**

- Compressive Strength: Greater than 1800 psi
- Tensile Strength: Greater than 50 psi
- Shear Bond Test: Greater than 50 psi
- Water Absorption: Less than 3% mass loss
- Aggregate: Tested in accordance with ASTM C33 or C330
- Cement: Tested in accordance with ASTM C150
- Sand: Tested in accordance with ASTM C144 or C33
- Aggregate: Tested in accordance with ASTM C35 or C33

**Weight:** The average packaged weight of Coronado Stone veneer is 8 to 12 lbs. per square foot. Weight varies with thickness.

**Non-Combustible:** Testing on Coronado Stone showed zero flame spread and zero smoke development.

**Integral Colors:** Coronado’s production process results in a product which maintains a natural stone appearance even after many years of exposure to the elements.

**Approvals:** Coronado Stone has been tested by independent laboratories and has been approved for its intended use by:

- **Texas Department of Insurance Product Approval Code:** [www.CORONADO.com](http://www.CORONADO.com)
- **Building Officials:** Texas Department of Insurance Product Approval Code, Evaluation ID EC-101
- **Technical Datasheet:** Coronado Stone is manufactured to meet or exceed specifications for all major code approvals. Independent testing confirms compliance with ICC-ES AC51 for Precast Stone Veneer. Always check your local building codes before installing stone.

50 Year Limited Warranty

Coronado Stone Products’ wall veneers are protected under this warranty for a period of 50 years from the date purchased, when used on a vertical structure which conforms to local building codes and when installed in accordance with the manufacturer’s instructions. Warranty coverage specifically excludes: damage resulting from structure settlement and other types of wall movement, contact with paint or chemicals, discoloration due to contaminants, staining, oxidation and water damage.

This warranty covers only manufacturing defects in Coronado Stone Products’ wall veneers and is limited to the replacement or repair of defective materials only and does not cover the cost of removal or installation of defective products. This warranty is limited to the original purchaser and is non-transferable to any subsequent owner.

As a mason, Mel experienced the difficulty of installing stone that was not created with the installer in mind. It was heavy and the shapes and sizes were difficult to piece together. He realized that through proper pattern and mold design, ease of installation could be achieved. From that moment, ease of installation became the benchmark for every pattern of stone Mel created. Easy installation is not only a time saver, it’s a project saver.

The pride we take in the creation of our product shows in the quality experience you will enjoy as one of our valued customers. Give Coronado the opportunity to make you a believer. Our mission is your satisfaction!

In 1960, there was only one stone manufactured in California. It was a 2½’ x 4’ sheet of concrete which was broken up into random shapes at the job site. Mel Bacon saw the need for something better and started making his own stone. He soon developed the first random shaped stones from individual molds which led to the development of many of today’s popular varieties of ledge stones and ashlar patterns.

The Over 50 Years of Manufacturing Excellence

Coronado manufactures and distributes its high quality stone at seven factories conveniently located across North America.

Santa Barbara - Brookshire (Coursed Pattern)
Old Country Ledge - Grey Quartzite

Due to photographic and printing variations, brochure colors may not be accurate. All sizes are nominal.

We suggest examination of Coronado product samples prior to purchase.
