### Choices Specific to Viejo Ranch

- Standard Colors:** Viejo Blend or Any Custom Color
- Grout Joint Width:** Standard ½" Grout Joint, ¾" Grout Joint or Drystack
- Grouting Options:** Deep Raked, Drystack or Full Brushed
- Grout Joint Color:** Natural Grey, Natural Off-White or Complementary Color
- Accessories:** Corners, Complementary Tiles, Wall Caps, Post Caps and more. (See Accessories section of binder)

### Special Installation Notes

- Pattern:** Install in a random ashlar pattern. Do not install stones vertically. Blend the stone on the wall from several different boxes to ensure proper color and size variation.  
**See catalog photos for recommended installation pattern.**
- Chalk Lines:** Should be used by installer to ensure a straight and level pattern.
- Vertical Joints:** Avoid exceeding 2 medium or 3 small stones in height.
- Horizontal Joints:** Should not exceed 6' to 8'.
- Sealing:** Not required. However, if installed on an exterior exposed to excessive water from runoff or improper drainage, we suggest the product be sealed in that particular area to protect it from staining or spalling during freeze-thaw cycles.
- Freeze-Thaw:** When installing stone in a freeze-thaw environment, extra care should be taken to ensure a full coverage of mortar on the back of each stone, which will prevent water pooling behind the stone after it's been installed.
- Drystack:** A polymer modified mortar should be used for all drystack applications.
- Installation Info:** Download Coronado's latest installation instructions at [www.coronado.com](http://www.coronado.com) for information on mortar and installation recommendations.

### Profile Properties

- Size:** Stone sizes range from 2" to 18" in height and up to 30" in length (nominal).
- Thickness:** 2" to 3"
- Weight:** 9 to 12 lbs. per square foot.
- Packaging:** Available in big boxes (80 sq ft Flats & Corners sold by the linear foot).  
**When purchasing Viejo Ranch, coverage is based on installation with a ½" joint at the back of the stone.**
